

Import/Export of Content

For all FileNet Platforms

... Migration, Foreign Input and Content Delivery

KwikWork® provides FileNet clients with tools for the capture of document and data pairs from diverse and foreign platforms. Conversely, documents and data, complete with search and viewing capabilities, can be exported to transferable media.

Import for consolidation, export for distribution....

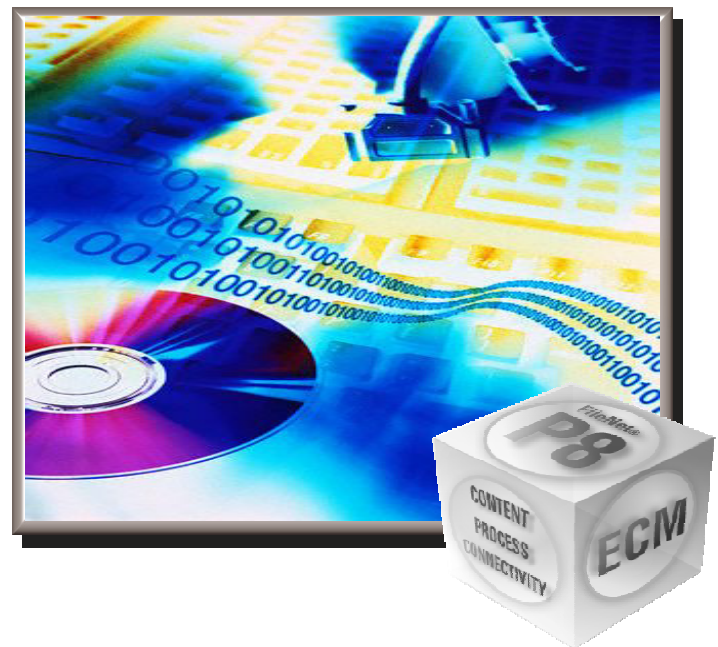

Document and data transfer is commonplace among disparate systems and between constituents. KwikWork tools are designed for such a transport to occur.
